California Solar Initiative Program
Non-Residential Energy Efficiency Disclosure Agreement

By installing all cost effective energy efficiency measures and having the building retro-commissioned before installing a solar energy system, the owner/operator/manager can lower the overall system size and cost.

The Host Customer must sign and date this form once completed. Electronically attach this form and a copy of the energy audit and benchmark rating, if required, with your California Solar Initiative reservation application in PowerClerk.

Please select your Program Administrator ☐ **SCE** ☐ **PG&E** ☐ **CCSE**

Fill in the blanks.

I am the owner/operator/manager **(circle one)** of the commercial building located at: _____
(address, city, state, zip code) and I am applying for incentives for the PV system to be installed on this building.

I have reviewed the building's available 12 months of energy usage from my utility company.
(Contact your Program Administrator if you need assistance)

I used at least one of the following services or tools to learn about energy efficiency measures that could be installed at my business:

Utility Link
- ☐ http://www.pge.com/mybusiness/energysavingsrebates
- ☐ http://www.sdge.com/business/rebatesincentives/
- ☐ http://www.sce.com/business/ems/default.htm

Other: _____

Third Party Link
- ☐ http://www.gosolarcalifornia.ca.gov
- ☐ http://www.cacx.org/
- ☐ http://www.fypower.org
- ☐ http://www.energystar.gov/

I had an energy audit completed on the commercial building that identified cost effective energy efficiency improvements, and estimated energy savings. ☐ **Yes** ☐ **No** ***(choose one)***

I have been informed of rebates and other incentives to help offset the costs of installing energy efficiency measures from my utility company. ☐ **Yes** ☐ **No** ***(choose one)***

If not:
Please visit your Utility's rebate and savings web site for more information before signing.
