# Solar Water Heating Professional Training

**Five-Day Workshop: \$125**

**January 20–24, 2013** (8 a.m. – 5 p.m.)

Includes installation lab, course workbook & lunch for all five days

This training typically costs \$1,000-\$2,000, but CCSE is providing it at a discount in support of developing the San Diego solar marketplace through the **California Solar Initiative Thermal Program**. Don't miss this special offer.

### Schedule:

**Days 1 & 2:** Addressing solar water heating technology fundamentals, sales, marketing and business development

**Days 3–5:** Covering advanced system design
