**Saving Energy's a
Breeze with Free
Shade Trees**

_____ would like to give you the gift of green:
Free 15-gallon shade trees to beautify your property, conserve energy
and reduce your energy bill.

Trees keep your property cooler in the summer, warmer in the winter, absorb
pollutants from the air and enhance property values by up to 10%.

Go to www.trees.energycenter.org to ensure your property qualifies --
and to choose from nearly two dozen varieties of trees.

Saving energy's a breeze with free shade trees. Brought to you by the California Center for Sustainable Energy and The Home Depot.
