Fueling Alternatives

An Alternative Fuel Vehicle Rebate Program

Background

Fueling Alternatives is a program of the California Air Resources Board (ARB) that provides rebates in varying amounts to Californians who purchase an eligible alternative fuel vehicle. Fueling Alternatives was developed in response to Assembly Bill 1811, which appropriated \$25 million for programs that promote alternative fuel infrastructure and vehicles. Approximately \$1.8 million of that money has been allocated for the Fueling Alternatives rebate program, which will be administered by the California Center for Sustainable Energy (CCSE) on behalf of the ARB.

Vehicles

The types of eligible vehicles and rebate amounts are provided in the table below. To receive a rebate, vehicles must be ARB certified (with the exception of zero emission motorcycles), comply with all applicable Federal Motor Vehicle Safety Standards, and meet a minimum manufacturer warrantee.

Qualifying Vehicle Types	Amount
Full-Function Battery Electric Vehicles	\$5,000
Hydrogen Fuel Cell Vehicles	\$5,000
Plug-in Hybrid Electric Vehicles	\$5,000
Alternative Fuel Vehicles	\$3,000
Neighborhood Electric Vehicles (with two-year battery warranty)	\$1,500
Zero Emission Motorcycles that are freeway capable (with two-year battery warranty)	\$1,500
Zero Emission Motorcycles that are not freeway capable (with two-year battery warranty)	\$1,000

For a complete list of the eligible makes and models, please visit www.fuelingalts.energycenter.org. The list will be updated as additional eligible vehicles are certified for sale in California.

Eligibility

The rebate will apply to all eligible vehicles purchased on or after May 24, 2007 through March 31, 2009 or as long as funds are available, whichever comes first. Eligible applicants include individuals, businesses, public agencies and entities, and private organizations.
