

# Survey of Solar Interest for a Condo Community

Dear \_\_\_\_\_

Our community wants to go solar!

We have the opportunity to share in a single solar photovoltaic (PV) system installed on our property and receive direct savings on our individual utility bills. Participation will be optional, but if you are interested, those of us who are working on this need to know as soon as possible to ensure we pursue a PV system that fits all of our energy needs. It may not be possible to participate in the savings once the solar has been installed.

If you have interest in exploring solar for your unit, please provide the following information to help us better develop the system. This questionnaire is simply to gauge preliminary interest in the project. Your answers are not binding, and you will have no obligation to go solar.

How much is your average monthly electricity bill? \$ \_\_\_\_\_

Would you be interested in learning about how a solar PV system installed at our condo community could lower utility bills?  Yes  No

Do you reside in your condo full time?  Yes  No

If not, how many months a year do you live in the condo? \_\_\_\_\_

Do you rent your unit out to tenants during other times? \_\_\_\_\_

In general, our community reserve funds should not be used for this solar project unless the entire community is involved. Therefore, as an individual investor, which of the following would you prefer?

- Owning a portion of the system (personal upfront capital, unsecured loan, home equity loan, special assessment fee).
- Leasing the system (provides fixed monthly fee lower than current electricity bill).
- Monthly use charge based on quantity of solar credits received (monthly fee priced lower than utility charges).
- I don't know and need more information.

If this solar project moves forward, the financing method will be decided by community voting rules.

Please note that there will be a special community meeting to discuss details about this solar opportunity among interested residents. If you want to participate in this project, please return the completed information to \_\_\_\_\_ no later than \_\_\_\_\_.

Condo Owner Name \_\_\_\_\_

Contact (Phone/Email) \_\_\_\_\_

Unit/Address \_\_\_\_\_

Utility Account Number \_\_\_\_\_

Utility Meter Number \_\_\_\_\_

Total Annual Load (kWh)\* \_\_\_\_\_

Preferred Solar Offset (1-100%) \_\_\_\_\_
