

EV Expert at Your Service

Driving the San Diego Region Into the Future

Multifamily Property EV Charging

The EV Expert can support multifamily apartment and condominium owners and property managers interested in installing electric vehicle charging stations for their communities. The EV Expert can help you evaluate options to find the best solution for your budget and unique site requirements.

Who Are We?

Plug-in San Diego (Plug-in SD) was established through a partnership between the San Diego Association of Governments (SANDAG) and the Center for Sustainable Energy (CSE). Plug-in SD provides no-cost support to local stakeholders interested in general and technical information on electric vehicles (EV) and EV charging infrastructure through the EV Expert. The EV Expert is here to help ensure the San Diego region is EV ready.

EV Expert technical expertise is informed by research and experience so the support provided is brand-neutral. From determining infrastructure requirements to policies governing charger usage, we provide a comprehensive approach to EV charger planning and installation.

The EV Expert understands the constraints multifamily communities face and can help you scope and scale your EV charging project. Our expertise allows you to focus on your core interests, while we work with you, your staff, board members, and residents to deliver well-planned EV charging.

EV charging can increase property value, provide a valuable benefit to residents and demonstrate a dedication to sustainable practices.

No-Cost Technical Assistance

Plug-in SD was launched with funding from the California Energy Commission to give multifamily apartment and condominium communities, in the San Diego region, the tools and technical assistance necessary to confidently provide EV charging to their residents.

Contact the EV Expert for a no-cost EV and EV charging station consultation via evexpert@energycenter.org or by calling (866) 967-5816. Learn more about Plug-in SD and EV readiness at energycenter.org/pluginsd.
